ARMY ORDNANCE

Index to Volume II

No. 7 (July-August, 1921) to No. 12 (May-June, 1922) Inclusive

SUBJECT INDEX

Aberdeen Proving Ground, The ... 345
Absorption of Moisture by Colloided Smokeless Powder 9
Aiming Mirror, Type A ... 376
Aiming Mirror, Type B ... 377
Aircraft Armament Division, History of the ... 363
Aircraft Armament Division Notes ... 241
Aircraft Guns, Part I ... 329
Aircraft Guns, 37-mm. ... 242
Aircraft Machine Guns ... 242
Airplane Bombing ... 21
Airplane Observation Instrument ... 53, 116
"Alabama," Bombing the ... 139
"All-around Fire" Platform for 12-inch Railway Mount 108
American Society of Mechanical Engineers, Meeting of Ordnance Section ... 20
Ammunition, Available ... 199
Ammunition Development, Artillery ... 360
Ammunition, "Harmless" ... 335
Ammunition, Improved Small Arms ... 135
Ammunition Loading and Assembling ... 208
Ammunition, National Match ... 247
Ammunition Problem, The ... 195
Ammunition Supply in Germany ... 354
Antiaircraft Artillery, Evolution of ... 293
Antiaircraft Defense ... 74
Antiaircraft Fire Control ... 116
Antiaircraft Gun Mounts, Model 1920, Loading Cycle for the ... 117
Antiaircraft Machine Gunnery, Part I ... 141
Antiaircraft Machine Gunnery, Part II ... 364
Application of Magnetic Analysis to Steel Blanks for Rifle Barrels, Springfield Armory, Mass ... 60
Army Ordnance Association, New York Post ... 363
Army Ordnance Association, Organization of New York Post ... 47
Army Ordnance Association, Third Annual Meeting of the ... 176
Artillery Ammunition ... 245
Artillery Ammunition Development ... 360
Artillery Division Notes ... 50, 108, 171, 181, 243, 308
Artillery, Evolution of Antiaircraft ... 293
Artillery Fuzes ... 201
Artillery, Maintenance of Railway ... 275
Artillery Matériel, Post-War ... 1
Artillery Motor Carriages, Developments in ... 35
Artillery, Part I, Self-Propelled Track-Laying ... 90
Artillery, Part II, Self-Propelled Track-Laying ... 153
Artillery, Part III, Self-Propelled Track-Laying ... 219
Artillery, Service Test of Motor Carriages for Army ... 95
Artillery Shell Production ... 206
Artillery Wheel, Evolution of the ... 100
Assembling, Ammunition Loading and ... 208
Assembly of Liner in 16-inch 50-caliber Gun, Shrinkage 55
Autorifle, The Thompson ... 150
Available Ammunition ... 199
Ballistics, Notes on Interior ... 324
Ballistics, The Study of Bomb ... 83
Ballistic Tables, New ... 198
Balloon Observation Instruments ... 53
Barbette Carriage, 16-inch 50-caliber Gun and ... 15
Barrels, Part I, Life of Machine-Gun ... 161
Barrels, Part II, Life of Machine-Gun ... 304
Baruch on Industrial Preparedness, Bernard M ... 328
Battleships, Bombs vs. ... 67
Biggest Bomb in the World, The ... 133
Board, Model 1921, Range Correction ... 53
Board, Optical Plotting ... 53, 116
Bomb Ballistics, The Study of ... 83
Bombing, Airplane ... 21
Bombing the "Alabama" ... 139
Bomb in the World, The Biggest ... 133
Bomb, Mark III, Manufacture of 1,100-pound Demolition ... 111
Bomb Racks, Bomb Sights and ... 242
Bombs ... 241
Bombs Heard 'Round the World (Editorial) ... 106
Bomb Sights and Bomb Racks ... 242
Bombs vs. Battleships ... 67
Bragg, Maintenance Activities at Camp ... 273
Cannon and Their Carriages, Relation Between Weights of ... 50
Carriage for 16-inch Gun, Disappearing ... 79
Carriage, Mounting 75-mm. Gun, Model 1916, Further Test of Pilot Mark VII Motor ... 108
Carriage, 16-inch Disappearing ... 52
Carriage, 16-inch 50-Caliber Gun and Barbette ... 15
Carriages, Christie Motor ... 285
Carriages, Developments in Artillery Motor ... 35
Carriages for Army Artillery, Service Test of Motor ... 95
Carriages, Method of Loading 16-inch Howitzers and Guns on Barbette ... 372
Carriages, Model 1919, and Guns, Model 1919 MIII, Dummy Cradle and Dummy Gun for Checking Interchangeability of Cradle on 16-inch Barbette ... 315
Carriages, Models of 1916 and 1920, 75-mm. Gun ... 86
Carriages on Narrow-Gauge Track, Railway ... 51
Carriages, Relation Between Weights of Cannon and Their ... 50
Carriages, Spades and Floats for Mobile Gun ... 332
Carriages, Special Engines for Motor ... 349
Caterpillar Adapters for the 155-mm. Gun Carriage, Model 1918 (Filloux) and 8-inch Howitzer Carriage, Mark VI and VII ... 108

Charges, Propellant 224
Chemical Industry, Resolution on 180
Christie Motor Carriages 285
Christie Motor Matériel, Test of 52
Chronograph Screens 310
Coincidence Target Computer 310
Commercial Utilization of Smokeless Powder, The 233
Computer, Coincidence Target 310
Construction of a Range Table, The 227
Conversion of 5-inch Gun into 3.3-inch Long Range Gun 115
Copper Removing Tool for 155-mm. Gun, Model of 1918 and 1918 MI 378
Corps Area and Department Ordnance Officers 279
Courses of Instruction for Officers of the Reserve Corps and National Guard 315
Defense, Antiaircraft 74
Demolition Bomb, Mark III, Manufacture of 1,100-pound 111
Design, Status of Track-Laying Vehicle 160
Development, Post-War Ordnance 321
Developments in Artillery Motor Carriages 35
Disappearing Carriage for 16-inch Gun 79
Disarm and Die (Editorial) 106
District Ordnance Offices 296
District System, The Ordnance 326
Dummy Cradle and Dummy Gun for Checking Interchangeability of Cradle on 16-inch Barbette Carriages, Model 1919, and Guns, Model 1919 MIII 315
Editorials:
- Bombs Heard 'Round the World 106
- Disarm and Die 106
- Industrial Preparedness 106
- Election of Officers 107
- Third Annual Meeting 107

Effect of Internal Strains in Forgings upon Subsequent Machining Operations 56
8-Inch Howitzer Motor Matériel, 155-mm. Gun and 50
Election of Officers (Editorial) 107
Elimination of Metallic Fouling in Rifles 99
Evolution of Antiaircraft Artillery 293
Evolution of the Artillery Wheel 100
Expansion of 240-mm. Howitzers, Model 1918 and Model 1918 MI 372
Experimental Department, Springfield Armory 144
Experimental Fuzes 245
Experimental Matériel 51
Experimental Musket Sight 247
Experimental Sight Mountings for the 75-mm. Gun Carriage, Model of 1897 MI 54
Explosives, High 229
Eyes for Tanks 309
Field Artillery Matériel, Storage of 290
Field Service, The Mission of Ordnance 257
Finishing Trunnion Spindle Casing Hemisphere 184
Fire Control, Antiaircraft 116
Flashless Powder 102
Floats for Mobile Gun Carriages, Spades and 332
Forgings Upon Subsequent Machining Operations, Effect of Internal Strains in 56
4.7-inch Gun—155-mm. Howitzer Motor Carriage, Model 1922 181
"Four-Point-Seven" Guns, New 212
Frankford Arsenal Notes 53, 116, 245, 310, 376
Fuzes, Artillery 201
Fuzes, Experimental 245
Fuzes, The Time Element of 165
Gages, Hoke 36
German Miniature Panoramic Telescope 310
Germany, Ammunition Supply in 354
Gun and Barbette Carriage, 16-inch 50-Caliber 15
Gun and Howitzers, New Sights for 246
Gun Carriages, Models of 1916 and 1920, 75-mm 86
Gun Carriages, Spades and Floats for Mobile 332
Gun, Disappearing Carriage for 16-inch 79
Gun, 8-inch Howitzer Motor Carriage, Model 1921, Spring Release Incorporated in Track Mechanism of 155-mm. 308
Gun, Model of 1918 and 1918 MI, Copper Removing Tool for 155-mm. 378
Gun, Model 1920 MI, Shrinkage of 4.7-inch 311
Gun Mount, Model 1920 E, Pneumatic Loader for 3-inch and 4.7-inch Antiaircraft 372
Gun Mounts, Model 1920, Loading Cycle for the Antiaircraft 117
Gunnery, Antiaircraft Machine 141
Gun, 75-mm. Pack Howitzer vs. 2.95-inch V. M. Mountain 38
Gun, Shrinkage Assembly of Liner in 15-inch 50-caliber 55
Guns, Model 1919 MIII, Dummy Cradle and Dummy Gun for Checking Interchangeability of Cradle on 16-inch Barbette Carriages, Model 1919, and 315
Guns, New "Four-Point-Seven" 212
Guns, Part I, Aircraft 329
Guns, Pastilles of 75-mm. 111
Guns, Test of Thompson Submachine 295
Gun, The Super-Machine 129
Gun Trunnions, Roller Bearings for 103
Gyro Compass for Tanks 88
Heaviest Single Unit of Ordnance in the World, The 78
High Explosives 229
History of the Aircraft Armament Division 369
Hoke Gages 36
Howitzer Carriage M 1921 E, 105-mm 184
Howitzer Carriage, New 105-mm 236
Howitzer, Investigation of Strength of 240-mm 109
Howitzer Matériel, Springs on German 105-mm 243
Howitzer Motor Carriage Mark IV and IV A, Test of the 240-mm 243
Howitzer Motor Carriage, Model 1921, Spring Release Incorporated in Track Mechanism of 155-mm. Gun, 8-inch 308
Howitzer Motor Carriage, Model 1922, 4.7-inch Gun—155-mm. 181
Howitzer and Carriage, Model 1922, The 75-mm. Pack 308
Howitzers and Guns on Barbette Carriages, Method of Loading 16-inch 372
Howitzers, Model 1918 and Model 1918 MI, Expansion of 240-mm. 372
Howitzers, New Sights for Gun and 246
Howitzer vs. 2.95-inch V. M. Mountain Gun, 75-mm. Pack 38
Hydro-pneumatic Packings 377
Improved Small Arms Ammunition 135
Industrial Preparedness (Editorial) 106

Industrial Preparedness, Bernard M. Baruch on 328
Interchangeability of Cradle on 16-inch Barbette Carriages, Model 1919, and Guns, Model 1919 MIII, Dummy Cradle and Dummy Gun for Checking 315
Investigation of Poisson's Ratio, Some Results from a Recent 113
Investigation of Strength of 240-mm. Howitzer 109
Larsen All-Metal Attack Plane, The New 152
Life of Machine-Gun Barrels, Part I 161
Life of Machine-Gun Barrels, Part II 304
Liner in 16-inch 50-caliber Gun, Shrinkage Assembly of 55
Loading and Assembling, Ammunition 208
Loading Cycle for the Antiaircraft Gun Mounts, Model 1920 117
Long Range Small Arms Firing, Part IV 31, 96
Long Range Small Arms Firing, Part V 166
Long Range Small Arms Firing, Part VI 237
Long Range Small Arms Firing, Part VII 299, 356
Machine-Gun Barrels, Part I, Life of 161
Machine Gun Barrels, Part II, Life of 304
Machine Gunnery, Part I, Antiaircraft 141
Machine Gunnery, Part II, Antiaircraft 364
Machine Guns, Aircraft 242
Machining Operations, Effect of Internal Strains in Forgings Upon Subsequent 56
Machine, Triplex Combination 277
Maintenance Activities at Camp Bragg 273
Maintenance En Route, Ordnance 266
Maintenance of Railway Artillery 275
Maintenance, Tank 270
Manufacture of 1,100-pound Demolition Bomb, Mark III 111
Manufacture of Track Link Pins 248
Matériel, 155-mm. Gun and 8-inch Howitzer Motor 50
Matériel, Storage of Field Artillery 290
Matériel, Test of Christie Motor 52
Meeting of Ordnance Section, American Society of Mechanical Engineers 20
Metallic Fouling in Rifles, Elimination of 99
Metallurgical Improvements in the Springfield Rifle .. 351
Method of Loading 16-inch Howitzers and Guns on Barbette Carriages 372
Method of Traversing 14-inch Railway Mount, Model of 1920, by Means of Large Ball Bearings 244
Military Pyrotechnics 231
Military Small Arms, Requisites for 336
Mission of Ordnance Field Service, The 257
Mobile Ordnance Repair Shops 263
Modified Quadrant Sight, Model 1918 55
Moisture by Colloided Smokeless Powder, Absorption of 9
Motor Carriage 248
Motor Carriage, Mounting 75-mm. Gun, Model 1916, Further Test of Pilot Mark VII 108
Motor Carriage Running Gear for High Speed 309
Motor Carriages for Army Artillery, Service Test of 95
Motor Carriages, Service Test of Divisional 181
Mountain Gun, 75-mm. Pack Howitzer vs. 2.95-inch V. M. 38
Mounts, Model 1920, Loading Cycle for the Antiaircraft Gun 117
Muscle Shoals, The Wilson Dam at 341
National Guard, Courses of Instruction for Officers of the Reserve Corps and 315
National Match Ammunition 247
National Match Rifles, 1921 117
New Ballistic Tables 198
New "Four-Point-Seven" Guns 212
New Larsen All-Metal Attack Plane, The 152
New 105-mm. Howitzer Carriage 236
New York Post—Army Ordnance Association 363
New York Post Army Ordnance Association, Organization of 47
Notes on Interior Ballistics 324
Observation Instrument, Airplane 53
Observation Instruments, Balloon 53
Observation Tower 117
155-mm. Gun and 8-inch Howitzer Motor Matériel 50
Optical Glass 51, 117
Opitcal Plotting Board 53, 116
Ordnance at Camp Perry 170
Ordnance Development, Post-War 321
Ordnance District System, The 326

Organization of New York Post Army Ordnance Association 47
Pack Howitzer vs. 2.95-inch V. M. Mountain Gun, 75-mm. 38
Panoramic Sights 338
Pastilles of 75-mm. Guns 111
Perry, Ordnance at Camp 170
Picatinny Arsenal 234
Plane, The New Larsen All-Metal Attack 152
Platform for 12-inch Railway Mount, "All-around Fire" 108
Pneumatic Loader for 3-inch and 4.7-inch Antiaircraft Gun Mount, Model 1920 E 372
Poisson's Ratio, Some Results from a Recent Investigation of 113
Post-War Artillery Matériel 1
Post-War Ordnance Development 321
Powder, Flashless 102
Powder, Smokeless 216
Preparations for 1922 Target Matches 284
Preparedness, Bernard M. Baruch on Industrial 328
Preservation of Rubber Tires 112
Projectile Design 204
Propellant Charges 224
Protractor, Model of 1921, Semi-circular 311
Pyrotechnics, Military 231
Quadrant Sight, Model 1918, Modified 55
Railway Artillery 51
Railway Carriages on Narrow-Gauge Track 51
Railway Mount, "All-around Fire" Platform for 12-inch 108
Railway Mount, Model of 1920, by Means of Large Ball Bearings, Method of Traversing 14-inch 244

Range Correction Board, Model 1921 53
Range-Finders, Test of Short-Base 203
Range Table, The Construction of a 227
Reclaiming 2½-ton Tractors, Model of 1918 347
Recuperator Building, Rock Island Arsenal 247
Relation Between Weight of Cannon and Their Carriages 50
Repair Shops, Mobile Ordnance 263
Requisites for Military Small Arms 336
Reserve Corps and National Guard, Courses of Instruction for Officers of the 315
Results from a Recent Investigation of Poisson's Ratio, Some 113
Rice, Retirement of General 45
Rifle Barrels, Springfield Armory, Mass., Application of Magnetic Analysis to Steel Blanks for 60
Rifles, Elimination of Metallic Fouling in 99
Rifles, 1921 National Match 117
Rock Island Arsenal Notes 111, 184, 247, 309, 377
Roller Bearings for Gun Trunnions 103
Scientific Data for Ordnance Engineering 12
Self-Propelled Track Laying Artillery, Part I 90
Self-Propelled Track Laying Artillery, Part II 153
Self-Propelled Track Laying Artillery, Part III 219
Service Stations, Ordnance 259
Service Test of Divisional Motor Carriages 181
Service Test of Motor Carriages for Army Artillery 95
75-mm. Gun Carriages, Models of 1916 and 1920 86
75-mm. Pack Howitzer vs. 2.95-inch V. M. Mountain Gun 38
Shell Production, Artillery 206
Shrinkage Assembly of Liner in 16-inch 50-caliber Gun 55
Shrinkage of 3.7-inch Gun Model 1920 MI 311
Sight, Experimental Musket 247
Sight Mountings for the 75-mm. Gun Carriage, Model of 1897 MI, Experimental 54
Sights for Gun and Howitzers, New 246
Sights, Panoramic 338
Sights, Telescopic Musket 23
Sixteen-inch Disappearing Carriage 52
16-inch 50-caliber Gun and Barbette Carriage 15
Small Arms Ammunition, Improved 135
Small Arms Firing, Part IV, Long Range 31, 96
Small Arms Firing, Part V, Long Range 166
Small Arms Firing, Part VI, Long Range 237
Small Arms Firing, Part VII, Long Range 299, 356
Small Arms, Requisites for Military 336
Smokeless Powder 216
Smokeless Powder, The Commercial Utilization of 233
Spades and Floats for Mobile Gun Carriages 332
Special Engines for Motor Carriages 349
Spotting Instruments 116
Springfield Armory 171
Springfield Armory Experimental Department 144
Springfield Armory, Mass., Application of Magnetic Analysis to Steel Blanks for Rifle Barrels 60
Springfield Armory Notes 117, 380
Springfield Rifle, Metallurgical Improvements in the 351
Spring Release Incorporated in Track Mechanism of 155-mm. Gun, 8-inch Howitzer Motor Carriage, Model 1921 308
Springs on German 105-mm. Howitzer Matériel 243
Status of Track-Laying Vehicle Design 160
Storage of Field Artillery Matériel 290
Study of Bomb Ballistics, The 83
Super-Machine Gun, The 120
Supply in Germany, Ammunition 354
Tank Center, Ordnance Work at 118
Tank Maintenance 270
Tank, Tractor and Trailer Division Notes 118
Tanks, Gyro Compass for 88
Telescope, German Miniature Panoramic 310
Telescopic Musket Sights 23
Test of Christie Motor Matériel 52
Test of Pilot Mark VII Motor Carriage, Mounting 75-mm. Gun, Model 1916, Further 108
Test of Short-Base Range-Finders 203
Tests of the 240-mm. Howitzer Motor Carriage Mark IV and IV A 243
Test of Thompson Submachine Guns 295
Third Annual Meeting (Editorial) 107
Third Annual Meeting of the Army Ordnance Association 176
37-mm. Aircraft Guns 242
Thompson Autorifle, The 150
Thompson Submachine Guns, Test of 295
Time Element of Fuzes, The 165
Tires, Preservation of Rubber 112
2.95-inch V. M. Mountain Gun, 75-mm. Pack Howitzer vs. 38
Track-Laying Artillery, Part I. Self-Propelled 90
Track-Laying Artillery, Part II, Self-Propelled 153
Track-Laying Artillery, Part III, Self-Propelled 219
Track-Laying Vehicle Design, Status of 160
Track-Laying Vehicles, Track Losses in 118
Track Link Pins, Manufacture of 248
Tractor, Model of 1920, Transmission for Divisional 371
Tractors, Model of 1918, Reclaiming 2½-ton 347
Transmission for Divisional Tractor, Model of 1920 371
Triplex Combination Machine 277
Trunnions, Roller Bearings for Gun 103
Trunnion Spindle Casing Hemisphere, Finishing 184
Twenty-Year Club, Watertown Arsenal 114
Watertown Arsenal Notes 113, 244, 315, 372
Watertown Arsenal, Twenty-Year Club 114
Watervliet Arsenal Notes 55, 115, 311, 378
Wheel, Evolution of the Artillery 100
Wilson Dam at Muscle Shoals, The 341
